

## **Attention Surf Command – Radio Room Relocation**

All West Beach radio operators / active members please note that for the purposes of fulfilling our state radio duty obligations, the radio room has been relocated from the Seacliff Patrol Tower to:

**The Boat Shed  
Kitawah St (opposite Gurners Lane)  
Lonsdale SA 5160  
Ph: 83771600**

We are expected to provide a minimum of two (2) suitably qualified persons (Bronze Medallion or Radio Operators Certificate) to perform Surf Command duties.

The hours of operation are at the minimum from 12noon until 6pm unless all clubs and services have signed off prior to this time. Surf command personnel should be there at least fifteen (15) minutes prior to the commencement of patrols to complete log books and familiarize themselves with equipment and perform any necessary maintenance requirements.

All radios and computers should be ready for operation and are to be left on at the completion of duty. Emergency numbers are listed in the radio room.

**Keys for the radio room are available from Cutloose Surf, 4 Piping Lane, Lonsdale (marked on the map on the unnamed street running off Kitawah St). At the completion of patrol, keys are to be left inside with the log books and the door locked and pulled shut.**

West Beach Radio Officer,  
Brian Burrowes, 0402 265680
